March 2026

Dear Children at Our School,

At our last School Council meeting, we talked about the new lunch time toys we have. We really enjoy using the basketball hoops, construction toys, skipping ropes, and more! These make lunch times lots of fun and help us move and play. But we have even more ideas!

The School Council is starting a special competition for all children to make up a new playground game. You can use one or more of these things: a ball, skipping rope, beanbag, or parachute.

We want the game to be fun and help children learn important things like taking turns, counting, or listening carefully. The game should also help children make friends and follow our school rules: be safe and be kind.

Here is what you need to do:

- Think of a new playground game.
- Tell us how to play it and what you learn from it.
- Show how the game helps children make friends and work as a team.

You can draw a picture of your game and write a few sentences to explain it. Parents, please help your child with their ideas and writing.

The winner will show their game in a special school assembly and everyone will get the chance to play it outside on the playground!

Please give your game ideas to your teacher by **Wednesday 25th March**.

We cannot wait to see your amazing ideas and make lunch time play even more fun for everyone!

Thank you for helping,

EMMELINE
