Referrals can be made by a parent/carer/child/young person themselves or anyone who has their permission.

We can help by:

- listening to your concerns and explaining what options are available
- explaining how education settings can support children and young people with special educational needs/a disability
- giving you information about what the law is and what your choices are, to help you make your own decisions.
- supporting you where required at meetings and helping you to get your views across
- finding voluntary groups and other agencies that can also support you, with the help of the Essex Local Offer
- guiding you through the Education, Health and Care Needs assessment process
- supporting you in discussions with education settings and the local authority where a child or young person is at risk of exclusion or has been excluded
- advise you on processes for resolving disagreements, appeals processes and means of redress
- consulting parents, children and young people and ensuring your views influence the development of local policy and practice for children and young people with special educational needs/a disability.

In addition we provide access to an Independent SEND Mediation service:

Global Mediation provides an independent SEND mediation service for disagreements between parents/carers, young people and the local authority or an education setting.
